A MESSAGE FROM THE OWNERS

On behalf of the owners of Southern Select Cattle, we would like to extend a warm welcome and sincerely thank you for your interest in our sale and the cattle being offered.

Southern Select Cattle was founded on a shared passion for South Poll cattle and a commitment to promoting functional, efficient, and productive cattle that thrive in practical, forage-based operations. We are proud to bring together a diverse group of consignors representing different backgrounds, breeding philosophies, and geographic regions. This diversity provides buyers with an excellent opportunity to select cattle from a variety of genetics and breeding programs, all with a common emphasis on efficiency and profitability.

One of the things that makes this offering special is the way these cattle have been raised and managed. Our consignors emphasize practical, low-input production systems. They have indicated their cattle are accustomed to electric fencing, rotational grazing, and receiving little to no supplemental feed. These management practices are designed to produce cattle that are adaptable, forage-efficient, and capable of performing under real-world conditions.

We recognize and appreciate the hard work, dedication, and commitment of each of our consignors. Their willingness to offer quality cattle is what makes Southern Select Cattle possible. If you are interested in consigning to one of our future sales, please let us know. We also want to thank our customers, both past and present, for their trust and continued support.

For those unable to attend in person, online bidding will be available through Bestcattlesales.com, allowing buyers from across the country to

participate in the sale. Trucking can also be arranged anywhere in the United States, making it convenient for buyers to purchase cattle regardless of their location. We want to make the buying experience as easy and accessible as possible for everyone.

Whether you are attending in person, joining us online, or simply learning more about our sale, we appreciate your interest. We look forward to visiting with you, sharing our passion for South Poll cattle, and helping you find cattle that will be a valuable addition to your operation.

Thank you for your support, and welcome to Southern Select Cattle!

Respectfully,

The Owners of Southern Select Cattle

Paul Epting, Rolling Hill Ranch: 864-630-0152

Brooks Dickson, Rose Hill Farm: 770-519-8567

Ethan Foard, Easy E Cattle Co.: 843-672-8993

SOUTHERN SELECT SOUTH POLL CATTLE SALE

TERMS AND CONDITIONS

1. All bidders must pre-register before the auction and will be required to present a valid driver's license for copy. Once registered, the bidder will receive a numbered buyer's card.
2. All settlements will be made by cash or check immediately following the close of the auction.
3. Online bidders will be emailed an invoice for each winning lot and contacted at the close of the auction with wire transfer and trucking details. Wire transfer will be expected on the next business day.
4. All animals will be identified by lot number.
5. The opening bid price will be \$2,500 on open heifers; \$3,500 on bred heifers; \$4,500 on cow/calf pairs; \$3,000 on bulls. If animals do not meet the minimum, they will be considered "No Sale".
6. All animals will be available for viewing after 9:00 A.M. on Friday, December 4, 2026.
7. Cattle will be sold according to lot number at each sale. Any changes or addendums will be announced on sale day.
8. Trucking will be available on sale day at buyer expense. Cattle may not be loaded until after the conclusion of the auction, the animal is paid for, and a load out ticket is issued by the clerk and presented to the load out manager. All animals, once sold, become the sole responsibility of the buyer.
9. All sale animals must be registered by consignor prior to being listed in the sale catalog.
10. All weaning age animals being sold without the dam at side, must be weaned 30 days prior to the auction.
11. Bulls over 12 months of age at the time of the sale, must pass a Breeding Soundness Exam (BSE) and be Trichomoniasis tested negative by a licensed veterinarian.
12. All females being sold as bred, must be pregnancy checked, or blood tested to verify pregnancy.
13. Consignor agrees to and is required to provide DNA information on the potential sires to the buyer of a bred animal.
14. A current health certificate is required on each animal consigned upon arrival at the sale. After the auction, health certificates will be transferred to all sold animals as required for shipping.
15. Registration certificates will be transferred to the buyer at the expense of Southern Select Cattle. The buyer is responsible for submitting the proper contact information and SPGCA member number (if applicable) to the clerk for making transfers.
16. Phone bids will be accepted, but arrangements must be made in advance- please see Rule 1.
17. All persons who attend this sale do so at their own risk. Southern Select Cattle, Laurens Livestock, and cattle consignors assume no liability or otherwise for any accidents that may occur.
18. All transactions are between the seller and buyer.

Save the Date

2027 SOUTHERN SELECT SOUTH POLL CATTLE SALE WILL BE FIRST WEEKEND OF DECEMBER!

FRIDAY • DECEMBER 4, 2026, 1:30 PM | LAURENS LIVESTOCK, LAURENS, SC

SOUTHERN SELECT CATTLE *The Founder's Farms*

Rolling Hill Ranch **Paul Epting**

My wife and I, along with our three children, operate Rolling Hill Ranch located in Mountville, SC. Ranching started as a hobby shortly after we got married in 2008, as my wife

Caroline was a cosmetologist and I was a General Contractor. Our passion to steward and care for God's creation quickly grew as we began seeking ways to turn our hobby into a full-time occupation. Over the course of the next 12 years with many failures, a few successes, and a lot of study and education, our conventional farming practices transformed into regenerative farming practices as we wanted to be profitable while making our land better. That's also when our cow herd began to transition from black to red. We bought our first South Poll cattle in January of 2020 and haven't looked back since. We also purchased our new farm that same year, allowing us to expand our operation and reach our goal of being full-time first-generation ranchers. That dream became reality in October 2022!

Today, we raise registered South Poll cattle using adaptive grazing practices to produce the best quality bulls and replacement heifers possible. We strive to develop low input cattle that excel in our heat and humidity and thrive on our fescue dominant pastures, all while raising a healthy calf every year.

Sassafras Valley Ranch - Bruce Shanks

Bruce and Sunshine Shanks own and reside on Sassafras Valley Ranch in Belle, MO where they graze livestock on 725 owned acres and 10 lease farms totaling 1,400 acres.

Currently, they run 300 registered South Poll cows and have a flock of 200 commercial Katahdin hair sheep. They follow a simple recipe for cattle production and are TRULY a low-input operation. The only supplements cattle receive are mineral and dry hay. A heavy emphasis is placed on fertility and hardiness and cows that pregnancy check open are strictly culled; additionally, heifers are required to calve as two-year-olds.

Bruce has been on the South Poll Grass Cattle Association board since the organization's inception.

Rose Hill Farm **Brooks Dickson**

Myself and my wife, Brooke, are the owners and founders of Rose Hill Farm - a first-generation, veteran-owned, cattle operation based in Elberton, Georgia.

Since launching the business in 2020, We have been committed to raising high-quality South Poll cattle through sustainable, ethical, and regenerative practices. We practice rotational grazing to produce nutrient-dense, 100% grass-fed beef while building healthy soil and resilient pastures.

With a dual focus on both the grass-fed meat market and premium seed stock, we are passionate about helping customers—from families looking for clean, local beef to producers seeking top-tier genetics for their own herds.

At Rose Hill Farm, it's not just about raising cattle—it's about stewarding the land, honoring values, and building a legacy from the ground up.

Eazy E Cattle Co **Ethan Foard**

Born and raised in Chesterfield County South Carolina. My love for agriculture started at a young age. My summers were spent with my grandparents who live the simplest life at their age. The farm animals were gone, and the pastures had been rented to crop farmers. My grandmother's garden fed them all year and nothing went to waste. I never knew that my entrepreneurial lifestyle would allow me to someday piecemeal the old family farm back together.

Now that it's whole again, I am proud to say that it's home to our registered South Poll herd. It makes life worth living to have our nine-year-old daughter, enjoying this journey with the hopes of sustainability for generations to come.
